MANAGER LEWIS HELPS Promises to Arrange Benefit for Boy Scouts' Fund.

Bey Scouts who are hustling hard to earn the money with which to pay their expenses to the state convention of the organization at Hartford have so far accumulated large quantities of eld books and waste papers. But more paper is needed. Within the remaining days the boys will keep up their activities, gathering as much more material as is possible. To augment their collection work as a money-producer, the boys are gladdened by the interest and generosity of J. F. Lewis, manager of the Orpheum theatre, who is to arrange a benefit show in their behalf. The success they are having is encouraging the boys, and if they get the same help as they have received to date, they seem very likely to realize their cherished desire of being among those present when the big affair at Hartford comes off, later this menth.

Get at the Real Cause—Take Dr.\
Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Ofive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. It you have a bad taste in your mouth, tongue coated, appetite poor, lasy, don't-care feeling, no ambition or emergy, troubled with undigested foods, you should take Ofive Tablets, the substitute for calomel.

Dr. Edwards' Ofive Tablets are a purely vogetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief, so you can eat what you like. As 10c and 25c per box. All druggists.

Big Deposits at Savings Bank.

An official of the Putnam Savings bank stated Tuesday that the business transacted by the institution during January made that month one of the most satisfactory since the institution reopened for business in the early part of last year. Deposits were surprisingly heavy and among the depositors were many from distant sections of Connecticut as well as from all the surrounding territory. It is now assured that the April statement of the bank will be surprisingly good.

The possibilities that the future may hold for the country are beginning to act as a stimulant to recruiting here. Three applications for membership have been received and there have been inquiries relative to enlistment. Another sign of special interest is that men resident here who are members of other units of the Connecticut military organization are considering seeking transfers for membership is the Thirteenth company. These men want to be with the home company if it is ordered out for service.

Incidentally, it was pointed out on Tuesday, there are approximately 250 men in and about Danielson who have seen service and, in a number of instances, wer service—and it is felt that there would be a rush of recruits in case of a declaration of war.

Captain Withee said Tuesday that as yet members of the company have not received the federal pay that is now allowed them for participating in weekly drills, but it is understood that the first payment is to be received soon.
